

The project «EPICURO - European Partnership for Innovative Cities within an Urban Resilience Outlook» was funded with the support of the European Union under the Programme "Europe for Citizens"

Applicable to the Strand 2 – Measure 2.2 "Networks of Towns"

569330-CITIZ-1-2015-2-ES-CITIZ-NT

EPICURO “European Partnership for Innovative Cities within an Urban Resilience Outlook”

6 international events have been carried out within this project under the period 04/04/2016 – 03/04/2018

Event 1: Public International Conference - Kick off meeting

Participation: The first event involved 101 EU citizens, including 23 international citizens notably 2 participants from Mancomunidad Integ. Sierra de San Pedro (Spain); 3 participants from Municipality of Vicenza (Italy); 2 participants from the city of Valka (Latvia); 2 participants from the Municipality of Niepolomice (Poland); 3 participants from the city of Alba Iulia (Romania); 3 participants from the Province of Potenza (Italy); 2 participants from the city of Svilengrad (Bulgaria); 2 participants from the city of Valga (Estonia); 1 participants from the city of Bonn (Germany); 3 participants from the city of Skopje (Republic of Macedonia).

Location/ Dates: The event took place in Virovitica, Virovitica-Podravina County from 16/05/2016 to 18/05/2016

Short description:

The day of 16/05/2016 was dedicated to arrival of representatives of partner organisations to Virovitica (Virovitica- podravina County - VPC). Welcom dinner was organised and it was a chance for all representatives to get acquainted. During the evening representatives of VPC presented the participants the detailed work plan for the next two days of the visit.

The day of 17/05/2016 was dedicated to the Public international conference that was held in the conference hall of Poduzetnički inkubator Virovičko-podravske županije starting from 10:00 a.m. During the conference participants were informed on project EPICURO, main goals, partners and planned activities. Also, during the conference there were presentations held on topics related to climate change; human impact on nature and consequences of the same and later activities in order to minimize the negative impact; adaptation policies at urban level.

After the Public international conference, partner representatives participated in a study tour of City of Virovitica. During the tour were presented the most interesting parts of the city and the historical facts related to the formation of the city with a professional guidance of tourist guide. In the evening, as planned, presentation of partner cities was organised. It was a chance for all representatives of partner organisations to present their towns/municipalities/counties and in particular their best practices in relation to climate change adaptation policies.

The day of 18/05/2016 was dedicated to partnership meeting during which representatives of the applicant organisation presented all other participants details about future planned project activities. During the meeting a Skype conference call was organised with the responsible agency for project communication, which explained to partners the dissemination project plan. Also, during the meeting a final timetable for future project events was set.

Main decisions taken – deliverables produced :

Project EPICURO was presented to the public;
Best practices and knowledge exchange session between the international partners on topic of resilience and adaptation policies at local level: this allowed exchange among 10 different EU Countries
Future developments of the project were discussed, timetable for the future project events was set;
Study tour of City of Virovitica

Event 2 : Transnational Technical Meeting I

Participation: The project involved 51 citizens, notably 29 participants from the Municipality of Niepolomice (Poland) and 22 international so divided:

2 participants from Virovitica-Podravina County (Croatia),
2 participants from the city of Valga (Estonia),
3 participants from the city of Valka (Latvia),
2 participants from Mancomunidad Integral Sierra de San Pedro (Spain)
2 participants from the city of Skopje (Republic of Macedonia)
1 participant from the Province of Potenza (Italy)
3 participants from the city of Vicenza (Italy)
3 participants from the city of Svilengrad (Bulgaria)

2 participants from the city of Bonn (Germany)
2 participants from the city of Alba Iulia (Romania)

Location/ Dates: The event took place in Niepolomice (Poland), from 26/09/2016 to 28/09/2016

Short description:

The day of 26/09/2016 was dedicated to a first networking session among international representatives, which discussed organizational details for the following 2days work

The day of 27/09/2016 was dedicated to the outline of resilience in the context of cities and communities; presentation of citizens engagement channel and methodologies used by partners; study visit to the Community House run by Inspiro NGO – as a positive example of co-operation of the local government with citizens in creating an innovative approach to managing public life

The day 28/09/2016 was dedicated to planning local citizens engagement activities to be performed from September 2016 to August 2017 (local activities part I); working international tables for drafting a common strategy for key actors selection and involvement; summary of the meeting, planning of next activities and deadlines; presentation of the project website; study visit in the city of Niepolomice with a focus on places and institutions related to citizens involvement, amongst them: Social Activity Lab Open Space – a place where citizens with an idea to organize a meeting, network, workshops etc. can meet free of charge, as well as a new library that was designed and arranged according to the results of the consultations with citizens.

Main decisions taken – deliverables produced:

Each partner will start planning at least one activity/event/action focused on building resilience using citizens' involvement. Timeframe for the realization of this undertaking will be from September (actually October) 2016 until August 2017. In particular for the first part of year 2017, partners will have the role of selecting key actors which will participate to the 2 training sessions planned for February and June 2017. Key actors will be the team of support for the partner cities, in disseminating resilience concepts among citizens and in organising involvement activities.

Event 3 : Transnational Training Session I

Participation: The project involved 52 citizens, notably 29 participants from the municipality of Valka (LATVIA), and 23 international, so divided:

2 participants from the municipality of Svilengrad (BULGARIA)
1 participant from the city of Bonn (GERMANY)
2 participants from the municipality of Niepolomice (POLAND)
3 participants from the municipality of Vicenza (ITALY)
2 participants from the municipality of Alba Iulia (ROMANIA)
2 participants from the city of Skopje (MACEDONIA)
2 participants from the municipality of Mancomunidad integral Sierra de San Pedro (SPAIN)
2 participants from the Province of Potenza (ITALY)
