

## EUROPEAN RESILIENT COMMUNITIES NETWORK AGREEMENT

Considering the increasing impacts that Climate Change is having on people, environment and economy,

Considering the urgent need for local communities to mitigate and to adapt to these changes, and to prepare to new climatic scenarios,

Considering the EU will to develop its resilience and to improve its adaptation capacity to Climate Change at all levels,

Considering the necessity to share experience, good practices and ideas, to work together in a network,

The partners of the EPICURO project

- Mancomunidad Integral Sierra de San Pedro (Spain)
- City of Bonn (Germany)
- City of Valga (Estonia)
- City of Valka (Latvia)
- Ciudad de Vicenza (Italia)
- Province of Potenza (Italy)
- City of Skopje (Macedonia)
- City of Niepolomice (Polonia)
- City of Svilengrad (Bulgaria)
- City of Alba Iulia (Rumania)
- County of Virovitica Podravina (Croacia)
- City of Skopje (Macedonia)

commit to

- maintain the European network created in the framework of the project to share experience, good practices and ideas about resilience and adaptation to Climate Change
- work locally to develop European resilience objectives

Cáceres, March 13<sup>th</sup>, 2018
